*Last Modified 28<sup>th</sup> April 2022*

## Highlights of Changes in 5.0.35.184

ID: 12737 Promotion Maintenance: Prompt confirmation message if promotion price are below minimum selling price.

User now able to save if promotion price is below minimum selling price. This is because some users want to sell their product with loss hence, they set the price lower than minimum selling. System now will prompt confirmation whether to save or not.
